2) Instruct the Director of Public Health to conduct an investigation of staff failures in the inspection of the market, and

3) Authorize the Chair of the Board to send a letter to the Mayor of the City of Los Angeles, asking for his cooperation by: a) assuring that City Building and Safety work with Public Health to enforce compliance with existing building and safety as well as health standards; or, if there is continued non-compliance by the operator of the facility, to revoke its operating license; and b) initiate a planning effort of relevant City and County agencies to develop a long-term plan for adequate facilities for wholesale food vendors in the downtown area.
